Ismoilxo'ja Hamidov

Front-end Developer

Profile

Let me introduce myself, I was born in 2004. i am an enthusiastic person. i am curios to study and learn new skills. Coding is engrossing activity for me. I would like to be a professional IT specialist Currently, i am looking forward to learn new technologies in Front-end field and practise in real team projects. Working with a team could be very efficent to get experience. and enhancing my knowledge while particpating on hand-on projects

Education

(MDIST) Management Development Institute of Singapore in Tashkent

Third year student
Faculty: Computer Information Systems for Business (IT)

Projects

Portolio project

I have built my personal website in order to representing projects in portfolio and providing information about myself

IT-Bilim imitation project

This web-page was imitation project of actual IT-bilim web-site. The purpose of developing that was enhancing my knowledge and skills

Cryto Property project

This web-page was all about crypto properties. That was one of my first react.js utilizing projects

Experience In IT

- **2021**
  Voris Print
  Graphic designer assistant
  in 2021 I studied Graphic design in Najot ta'lim and then participated in some projects as a graphic designer assistant using Adobe Photoshop and Adobe Ilustrator
